"Reflection in Education"

Reflection in education is a process where learners describe their experiences, desired change of their behaviour and relate to future outcome. It has three distinct styles as practices: Reflection- in -Action, Reflection- on-Action and Reflection- for -Action. The trained teachers who were going out from DPGTC last two decades from 1992 - 2024 , we expect that they were reflecting their acquired experiences in their reality. From this year, Dhemaji Post Graduate Training College is going to preserve and reflect all activities through this 'DPGTC NEWS' . I hope and wish it will be helpful for future generations.

Dr. Kilumoni Chutia
Principal
Dhemaji PGT College

EDITOR'S NOTE :

After weeks of planning and brainstorming we are proud to present to you the first issue of "DPGTC NEWSLETTER" featuring all the special, creative, memorable moments and academic life of the college. Nelson Mandela says " Education is the most powerful weapon which you can use to change the world." We prepare our trainees for tomorrow's world through a broad and stimulating curriculum and providing them with exciting and engaging learning experiences. At last, with all due respect I offer my sincere gratitude to the Principal, DPGTC for her constant guidance and support all throughout this enriching experience
